<p>2. Course Description:</p>		

This course facilitates the development of students' personalities who are religious, ethical, tolerant, and critical in responding to various social phenomena based on *Tri Hita Karana* through discussion topics regarding the historical perspective of THK, the meaning of welfare/happiness in THK, THK as a philosophy of life and local wisdom, THK as ethics of leadership, gender equality and THK, *Pancasila* and *Bhineka Tunggal Ika*.

3. Learning Outcomes of the Referred Study Programme:

A. ATTITUDE

- Apply knowledge and skills to provide solutions to make the right decisions in solving current problems in the workplace through the use of concepts in *Tri Hita Karana*.
- Demonstrate independent work, communication skills capable of developing collaborative networks with stakeholders, as well as showing sensitivity and social concern for the community and the surrounding environment
- Apply the basic concepts and values of *Tri Hita Karana* and educational principles to improve the quality of teaching which includes theological, sociological, and ecological dimensions.

B. KNOWLEDGE

- Mastering the theoretical concepts of *Parhyangan*/Theological from historical, theoretical, and sociological perspectives
- Mastering the theoretical concepts of *Pawongan* / Sociology from historical, theoretical, and sociological perspectives
- Mastering the theoretical concepts of *Palemahan*/ Ecology from historical, theoretical, and sociological perspectives

C. GENERAL SKILL

- Integrate learning and innovation skills, mastery of values, technology and information, personality and career development, and life skills to become lifelong learners
- Applying logical, critical, systematic, and innovative thinking in the context of developing or implementing science and technology that takes into account and applies the universal values of *Tri Hita Karana*
- Apply, study, create models, by referring to the values of *Tri Hita Karana* and utilizing science and technology, in solving social and environmental problems

D. SPECIFIC SKILL

- Plan, implement and evaluate *Tri Hita Karana* learning by utilizing various science-based sources
- Designing a model for implementing *Tri Hita Karana* in learning, producing learning media, utilizing media, and evaluating it

- Applying, studying, modeling, utilizing science and technology, in solving social and environmental problems

4. Course Learning Outcomes

A. ATTITUDE

- Apply knowledge and skills to provide solutions to make the right decisions in solving current problems in the workplace through the use of concepts in *Tri Hita Karana*

B. KNOWLEDGE

- Mastering the theoretical concepts of *Parhyangan*/Theological, *Pawongan*/Sociological, *Palemahan*/Ecological from historical, theoretical, and sociological perspectives

C. SPECIFIC SKILL

- Applying, studying, modeling, utilizing science and technology, in solving social and environmental problems

5. Lesson Plan Description

Meeting	Indicator of Course Learning Outcome	Study Material	Learning Form	Time	Assignments and Assessments	Reference
1	Students are able to describe comprehensively and in detail the lecture material, learning objectives/relevance, assessment, and references to be used	Semester lesson plan syllabus	Face to face online (synchronous), discussion	50 minutes lecturing + 60 minutes individual study + 60 minutes structured assignment	Participation in discussions	Semester lesson plan, Syllabus
2.	Explain the historical background of THK	THK embryos in the prehistoric	Lecturing and Discussion by	50 minutes lecturing + 60	Participation in discussions	1,2,3

	until the emergence of THK as a universal generic concept	era and their emergence in accordance with local wisdom and development	Synchron-Asynchronous, Inquiry approach	minutes individual study + 60 minutes structured assignment		
	Analyzing the essence of THK as an integralistic idea	THK is integralistic				
3	Analyzing THK on the human body	THK on human body	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes structured assignment	Participation in discussions	1,2,3
	Analyzing the meaning of harmony	The essence of harmony				
	Comparing the meaning of prosperity and happiness	Discourse of prosperity and happiness				
4	Analyzing the importance of thoughts in the context of determining happiness	Thoughts determine happiness	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes structured assignment	Participation in discussions	1,2,3
	Explain the four goals of human life	The four goals of human life				
	Analyzing the relationship between work and happiness	Work as a source of wealth				
5	Analyze the relationship between happiness and simple life	Partition based on 5W and 6Sa	Lecturing and Discussion by Synchron-Asynchronous,	50 minutes lecturing + 60 minutes individual	Participation in discussions	1,2,3

	Analyze the 3 pillars of happiness	Three pillars of happiness	Expository	study + 60 minutes structured assignment		
6	Studying the <i>karmapala</i> relationship/fate determines happiness	<i>Karmapala</i> / fate and happiness	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes structured assignment	Participation in discussions	1,2,3
	Analyzing the role of government to create happiness	The role of government to create happiness				
7	Explaining THK as a philosophy of life	THK as a Philosophy of Life	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes structured assignment	Participation in discussions	1,2,3
	Explaining THK as local wisdom	THK as local wisdom				
8	MID SEMESTER TEST					
9	Critically Explaining <i>Tri Hita Karana</i> -Based Leadership	<i>Tri Hita Karana</i> -Based Leadership	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes	Participation in discussions	1,2,3
	Analyzing <i>Asta Brata</i> -based leadership ethics and learning from nature	<i>Asta Brata</i> leadership and learning from nature				

				structured assignment		
10	Critically explain social wisdom based on <i>Tri Hita Karana</i>	<i>Tri Hita Karana</i> -Based Social Wisdom	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes structured assignment	Participation in discussions	1,2,3
11	Critically explain environmental wisdom based on <i>Tri Hita Karana</i>	Environmental Wisdom Based on <i>Tri Hita Karana</i>	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes structured assignment	Participation in discussions	1,2,3
12	Critically explain gender equality from the perspective of <i>Tri Hita Karana</i>	Gender Equality in <i>Tri Hita Karana</i> 's Perspective	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes structured assignment	Participation in discussions	1,2,3
13	Explaining THK in line with <i>Pancasila</i>	THK is in harmony with <i>Pancasila</i>	Lecturing and Discussion by	50 minutes lecturing + 60 minutes	Participation in discussions	1,2,3

	Abstracting THK includes the <i>Dharma</i> of religion and <i>Dharma</i> of the state	<i>Dharma</i> of religion and <i>Dharma</i> of the state (4 pillars of state life)	Synchron-Asynchronous, Expository	individual study + 60 minutes structured assignment		
	Give examples of religious expressions to manage <i>SARA</i> to bring about harmony	religious expressions to manage <i>SARA</i> to bring about harmony				
14	Abstracting the essence of <i>Bhineka Tunggal Ika</i> equals Pluralism	<i>Bhineka Tunggal Ika</i> equals Pluralism	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes structured assignment	Participation in discussions	1,2,3
	Explaining the common ground of fundamental values in managing diversity to create harmony	Common ground of inter-religious fundamental values to create harmony				
	Analyzing the essence of compassion, <i>Ahimsa</i> , and peace as the basis for harmony	the essence of compassion, <i>Ahimsa</i> and peace				
15	Finding common ground for fundamental cultural values to create harmony	Common ground of ethnic-based fundamental cultural values	Lecturing and Discussion by Synchron-Asynchronous, Expository	50 minutes lecturing + 60 minutes individual study + 60 minutes	Participation in discussions	1,2,3
	Explain the relationship between harmony and	Harmony requires dialogue				

	dialogue between religions	between religions		structured assignment		
	Analyzing the challenges of <i>Pancasila</i> and THK in the 4.0 Industrial Revolution era	Challenges of <i>Pancasila</i> and THK in the 4.0 Industrial Revolution era				
16	FINAL EXAM

2. Course Description The Civics Education course is intended to shape students into human beings who are spiritual in spirit, possess critical thinking skills, value reasoning, social skills, possess and uphold human dignity, have a high sense of nationality, and love for the homeland based on Pancasila.		

3. Learning Outcomes of the Referred Study Programme

- 1) Mastering citizenship issues in society, nation, and state life, based on Pancasila.
- 2) Mastering value reasoning and attitudes in evaluating and making decisions on citizenship issues.
- 3) Able to contribute in improving the quality of life in society, nation, state, and progress of civilization based on Pancasila;
- 4) Able to act as citizens who are proud and love their homeland, have a sense of nationalism and a sense of responsibility to the state and nation;
- 5) Able to work together and have social sensitivity and concern for society and the environment;
- 6) Be aware of the rights and obligations in the life of society and the state;
- 7) Have the ability to internalize values, norms, and ethics in social life;
- 8) Respect differences in ethnicity, religion, race, age level, gender, and socio-economic-cultural status;
- 9) Have a character based on Pancasila

4. Course Learning Outcomes

A. Attitude Learning Outcomes

Demonstrate scientific, educative, and religious attitudes and behaviors that contribute to improving the quality of life in society, nation, and state-based on academic norms and ethics based on *Tri Hita Karana* values.

B. Knowledge Learning Outcomes

- 1) Students master the understanding, vision, mission, scope, and objectives of Civics);
- 2) Students master the urgency of national identity;
- 3) Students master the nature of the nation and state;
- 4) Students are aware of the rights and obligations of citizens;
- 5) Students master the nature of democracy, rule of law, human rights, and civil society;
- 6) Students master geopolitics or insight into the archipelago;
- 7) Students master geostrategy or national security;
- 8) Students master politics and national strategy.

C. General Skills Learning Outcomes

- 1) Able to apply logical, critical, systematic, and innovative thinking in the context of the development or implementation of science and

technology that pays attention to and applies humanities values in accordance with their field of expertise.

- 2) Able to integrate learning and innovation skills, mastery of technology and information, career development, and life skills to become lifelong learners.

D. Specific Skills Learning Outcomes

- 1) Students can set an example and be an example in implementing their daily rights and obligations.
- 2) Students can set an example and be an example in implementing the values of nationalism and patriotism;
- 3) Students can implement rights and obligations in everyday life, both in the life of society, nation, and state.
- 4) Students can implement the values of nationalism and patriotism in their daily lives, both in the life of society, nation and state;
- 5) Students can participate in socio-political participation in influencing various public policies at the local, national, and global levels.

1. Lesson Plan Description

Meeting	Indicator of Course Learning Outcomes	Study Material	Learning Model	Learning Experience	Time	Assignments and Assessments	Reference
1.	Able to describe Pancasila as the foundation of Civics	Understanding Pancasila as the basis for the development of Civics	Multiliteracy Learning, Discussion, and Inquiry Approach	1. Reviewing books/articles (group) 2. Presentation by group of students 3. Class discussion (debate between groups) 4. Lecturer's explanation and direction 5. Individual assignment	Meetings 100 min, individual assignments 100 min, structure assignments 140 min.	Review Tasks, Presentations. Assessment of library quality and performance	8,9

2.	Able to describe the nature of Civics as political education, law, values, morals, and democracy	The essence of civics as political education, law, values and democracy education	Expository, discussion	1. 2. Course Description

The MPK is a subject that must be taken by all students. English courses are intended to form students who have good English skills both orally and in writing to support the mastery of certain knowledge and skills, as well as communication needs in everyday life.

3. Learning Outcomes of the Referred Study Programme

A. Attitude Learning Outcomes

1. Upholding human values in carrying out duties based on religion, morals, and ethics.
2. Contribute to improving the quality of society, nation, state and progress of civilization based on Pancasila.
3. To act as citizens who are proud and love their homeland, have nationalism and are responsible for the state and nation.
4. Appreciate the diversity of cultures, views, religions, and togetherness as well as the opinions or original findings of others.
5. Cooperate and have social sensitivity and concern for society and the environment.
6. Obey the law and discipline in social and state life.
7. Internalize academic values, norms, and ethics.
8. Demonstrate a responsible attitude towards work in the field of expertise independently.
9. Internalize the spirit of independence, struggle, and entrepreneurship.
10. Demonstrate behavior based on noble moral values, be empathetic and appreciate differences in ethnicity, religion, race, age, gender, and socio-economic-cultural status.
11. Have sincerity, commitment, and sincerity to develop the attitudes, values, and abilities of students.
12. Have an empathetic and humanist personality and social skills.

B. Knowledge Learning Outcomes

1. Be able to identify short monologues about “Greeting Culture in the World” and simulate conversations in everyday contexts including; introduce yourself and others, greet and provide information
2. Be able to identify discourses with the theme of Social Events and simulate conversations in everyday contexts including; offer something, invite, accept invitation
3. Be able to identify the content of the “giving direction” theme dialogue and simulate a conversation that contains various language expressions in everyday contexts including; show direction/place, show feelings of pleasure, give praise, and

show sympathy

4. Able to identify descriptive discourse, report, procedure, recount, exposition
5. Able to identify descriptive paragraph framework, report, procedure, recount, exposition
6. Able to identify the grammar of descriptive paragraph, report, procedure, recount, and exposition

C. General Skills Learning Outcomes

1. Able to apply logical, critical, systematic, and innovative thinking in the context of the development or implementation of science and technology that pays attention to and applies humanities values in accordance with the field of English language skills
2. Able to demonstrate independent, quality and measurable performance.
3. Able to make appropriate decisions in the context of problem solving in the field of communication in English, based on the results of analysis of information and data;
4. Able to maintain and develop working networks with supervisors, colleagues, peers both inside and outside the institution;
5. Able to be responsible for achieving the results of group work and supervising and evaluating the completion of work assigned to workers under their responsibility;
6. Able to carry out the process of self-evaluation of the work group under their responsibility, and able to manage learning independently;
7. Able to document, store, secure, and rediscover data to ensure validity and prevent plagiarism.

D. Specific Skills Learning Outcomes

1. Able to use English properly and correctly.
2. Simulate conversations containing language expressions in everyday contexts
3. Able to communicate orally and in writing in accordance with the field of profession involved
4. Able to write descriptive discourse, report, procedure, recount, exposition based on paragraph framework
5. Able to build communication in productive interpersonal and intrapersonal relationships
6. Able to use English spelling correctly, effective sentences in paragraph writing.

4. Course Learning Outcomes

A. Attitude Learning Outcomes

1. Demonstrate behavior based on noble moral values, be empathetic and appreciate differences in ethnicity, religion, race, age, gender, and socio-economic-cultural status.
2. To act as citizens who are proud and love their homeland, have nationalism and are responsible for the country and nation

B. Knowledge Learning Outcomes

1. Mastering and applying good and correct English, both orally and in writing in carrying out the profession

C. Specific Skills Learning Outcomes

1. Mastering, reviewing, and applying science and technology in the use of English, both orally and in writing according to the context in carrying out the profession

2. Course Description

The Pancasila course is one of the general compulsory subjects (MKWU) that must exist in universities according to Law Number 12 of 2012 concerning Higher Education. As one of the essential courses with a weight of 2 credits, this course aims to improve students' critical thinking skills, value reasoning, and social skills to be able to show their socio-political participation in making public decisions related to Pancasila as the state ideology and ideology. Nation and state. To achieve this goal, in this course, students will be invited to examine issues of concepts and values which include material for Pancasila Education in the Indonesian National Education System regarding the background, foundation, nature, vision, mission, and objectives of Pancasila Education; Pancasila in the perspective of the history of the struggle of the Indonesian nation; Pancasila as a value system and philosophy: Pancasila as a national ideology; Garuda Pancasila symbol; Pancasila as political ethics; Indonesian Constitution: the 1945 Constitution of the Republic of Indonesia; Pancasila as a paradigm of social, national and state life; as well as basic skills in developing public policies that are relevant to various problems of social, national and state life in the implementation of Pancasila values; as well as basic skills in developing public policies that are relevant to various problems in the life of the nation and state. Relevant learning to develop student learning competencies will be carried out either by independent, participatory, or cooperative learning approaches, as well as giving class projects. The tasks that are expected to be done by students as the main bill during the learning process are book summary reports, group papers, individual papers, class projects (class portfolios), and group presentations. Assessment of success in participating in this course will be carried out either through the Mid-Semester Examination, Final Semester Examination, assignments (portfolio), and self-assessment.”.

3. Learning Outcomes of the Referred Study Programme :

4. *Sikap* (S) / Attitude Learning Outcomes
5. Fear God Almighty and be able to show a religious attitude (S1)
6. Upholding human values in carrying out duties based on religion, morals, and ethics (S2).

3. Learning Outcomes of the Referred Study Program

A. Attitude Learning Outcomes

1. Fear God Almighty and be able to show a religious attitude.
2. Upholding human values in carrying out duties based on religion, morals, and ethics.
3. Contribute to improving the quality of society, nation, state and progress of civilization based on Pancasila.
4. To act as citizens who are proud and love their homeland, have nationalism and are responsible for the state and nation.
5. Appreciate the diversity of cultures, views, religions, and togetherness as well as the opinions or original findings of others.
6. Cooperate and have social sensitivity and concern for society and the environment.
7. Obey the law and discipline in social and state life.
8. Internalize academic values, norms, and ethics.
9. Demonstrate a responsible attitude towards work in the field of expertise independently.
10. Internalize the spirit of independence, struggle, and entrepreneurship.
11. Demonstrate behavior based on noble moral values, be empathetic and appreciate differences in ethnicity, religion, race, age, gender, and socio-economic-cultural status.
12. Have sincerity, commitment, and sincerity to develop the attitudes, values, and abilities of students.
13. Have an empathetic and humanistic personality and social.

B. Knowledge Learning Outcomes

1. Understand the history of the development of the Indonesian language, the position, and functions of the Indonesian language.
2. Understand the variety of Indonesian language and use it according to the context.

3. Mastering effective spelling and sentences to support the profession
4. Understanding the contents of various texts (description, narration, exposition, argumentation, and persuasion) for various purposes
5. Able to write various types of text (description, narration, exposition, argumentation, and persuasion) for various purposes.
6. Understand the systematics of writing scientific papers and be able to compile them for various purposes
7. Able to speak in scientific/official forums by using good and correct Indonesian.

C. General Skill Learning Outcomes

1. Able to apply logical, critical, systematic, and innovative thinking in the context of the development or implementation of science and technology that pays attention to and applies humanities values in accordance with their field of expertise.
2. Able to demonstrate independent, quality and measurable performance.
3. Able to review the implementation of the development or implementation of science and technology that pays attention to and applies humanities values according to their expertise based on scientific principles, procedures, and ethics in order to produce solutions, ideas, designs or art criticism, as well as compose a scientific description of the results of the study in the form of a thesis or final project report, and upload it on the college website.
4. Able to make appropriate decisions in the context of solving problems in their area of expertise, based on the results of analysis of information and data.
5. Able to maintain and develop working networks with supervisors, colleagues, peers both inside and outside the institution.
6. Able to be responsible for the achievement of group work results and supervise and evaluate the completion of work assigned to different workers under their responsibility.
7. Able to carry out the process of self-evaluation of different working groups under their responsibility, and able to manage learning independently.

8. Able to document, store, secure, and recover data to ensure validity and prevent plagiarism.

D. Specific Skills Learning Outcomes

1. Able to use Indonesian properly and correctly and politely according to the position of the language and language function
2. Able to use correct spelling and effective sentences in paragraph writing
3. Able to understand the contents of various types of text, write, and edit various types of text according to their characteristics
4. Able to write various types of citations and write a list of references
5. Able to write scientific papers, scientific articles, and correct proposals, both in terms of systematics and language.
6. Able to communicate effectively in good and correct Indonesian in scientific/official forums.
7. Able to communicate politely, both orally and in writing according to the context in carrying out the profession.

4. Course Learning Outcomes

Attitude Learning Outcomes

1. Demonstrate behavior based on noble moral values, be empathetic and appreciate differences in ethnicity, religion, race, age, gender, and socio-economic-cultural status.
2. To act as citizens who are proud and love their homeland, have nationalism and are responsible for the state and nation.

Knowledge Learning Outcomes

1. Mastering and applying good and correct Indonesian, both orally and in writing in carrying out the profession

Skills Learning Outcomes

1. Mastering, reviewing, and applying science and technology in the use of the Indonesian language, both orally and in writing according to the context in carrying out the profession

1. Course Description

This course aims to provide opportunities for students to understand, analyze, and evaluate educational practices in educational units. The study materials in this course are (1) school culture, (2) organizational structure and governance in schools, (3) rules and regulations for implementing education in schools, (4) formal ceremonial activities in schools, (5) routine activities in the form of curricular, co-curricular, and extracurricular, and (6) positive habituation practices and habits at school. Learning activities are carried out face-to-face on campus and orientation-observation in education units. The assessment is given by taking into account aspects of attendance on campus and in the education unit, reports on the implementation of activities, and oral exams.

The implementation of Teaching Practice 1 is carried out using a **block system**. The learning load is 2 credits in the form of field practice. The allocation of time for the implementation of Teaching Practice 1 is 2 credits x 16 Meetings x 170 minutes = 5,440 minutes, so the learning load in Lecture Hours is 5,440 minutes/50 minutes = 108.8 hours. Study load per day = 108.8/7 hours = 15.54 = 16 days. Of the 16 days, 25% or 4 days of the learning process are carried out on campus to provide orientation, debriefing, and reflection for students. While 75% or 12 days the learning process is carried out at partner schools to make observations.

2. Learning Outcomes of the Referred Study Programme

A. Attitude Learning Outcomes

Demonstrate scientific, educative, and religious attitudes and behaviors that contribute to improving the quality of life in society, nation and state based on academic norms and ethics based on *Tri Hita Karana* values

B. Knowledge Learning Outcomes

- 1) Mastering theoretical concepts and application of education implementation in education units through orientation and observation activities by utilizing the development of information and communication technology
- 2) Mastering theoretical concepts related to the general characteristics of students and being able to analyze the characteristics of students in real situations in Teaching Practice partner schools in depth

C. General Skills Learning Outcomes

- 1) Able to integrate learning and innovation skills, mastery of technology and information, career development, and life skills to become lifelong learners.
- 2) Able to apply logical, critical, systematic, and innovative thinking in the context of the development or implementation of science and technology that pays attention to and applies humanities values in accordance with their field of expertise.

D. Specific Skills Learning Outcomes

- 1) Able to design orientation activities and educational culture observations in an educational unit
- 2) Able to study organizational structure and school work procedures, regulations and publications, formal ceremonial activities, routine activities (curricular, co-curricular, and extracurricular), and positive habituation practices in schools through the use of science and technology and problem solving abilities

3. Course Learning Outcomes

- 1) Students are able to evaluate school culture,
- 2) Students are able to examine the organizational structure and governance in schools,
- 3) Students are able to examine the rules and regulations for implementing education in schools,

- 4) Students are able to study formal ceremonial activities at school,
- 5) Students are able to carry out routine activities in the form of curricular, co-curricular, and extracurricular activities, and
- 6) Students are able to evaluate positive habituation practices and habits at school

4. Lesson Plan Description

Meeting	Indicator of Course Learning Outcomes	Study Material	Learning Model	Time	Assignments and Assessments	Reference

2. Course Description

This course aims to provide opportunities for students to understand, analyse, and evaluate the implementation of learning and non-teaching activities in the educational unit environment and provide teaching administration experiences based on the ability to design learning practices and conduct evaluations. The study materials in this course are (1) curriculum analysis; (2) preparation of learning tools (RPP, media, worksheets, teaching materials, assessment instruments); (3) implementation of learning activities using a variety of learning strategies and learning media; (4) class management; (5) the use of learning information and communication technology; (6) implementation of learning assessment and evaluation; (7) management of co-curricular and extracurricular activities; and (8) teacher administration work. Learning activities are carried out through face-to-face meetings on campus, orientation-observation in education units, learning activities in schools, and non-teaching activities carried out independently and in groups. The assessment is given by taking into account aspects of the ability to carry out learning and non-teaching activities, reports on the implementation of activities, and oral exams. The implementation of Teaching Practice 2 as Real Teaching Practice is carried out with a block system. The learning load is 8 credits in the form of field practice. The allocation of time for Teaching Practice 2 as Real Teaching Practice implementation is $8 \text{ credits} \times 16 \text{ TM} \times 170 \text{ minutes} = 21,760 \text{ minutes}$. The learning load in JP is $21,760 \text{ minutes} / 50 \text{ minutes} = 435.2 \text{ JP}$. Study load per day = $435.2 / 6.9 = 62.17 = 63 \text{ days}$.

3. Learning Outcomes of the Referred Study Program

A. Attitude Learning Outcomes

Demonstrate scientific, educative, and religious attitudes and behaviours that contribute to improving the quality of life in society, nation and state based on academic norms and ethics based on *Tri Hita Karana* values.

B. Knowledge Learning Outcomes

- 1) Mastering theoretical concepts and application of education implementation in education units through orientation and observation activities by utilizing the development of information and communication technology
- 2) Mastering theoretical concepts related to the general characteristics of students and being able to analyze the characteristics of students in real situations at PLP partner schools in depth
- 3) Mastering the theoretical concepts of educational science (pedagogy): curriculum analysis, preparation of learning tools, implementation of learning, classroom management, and management of non-teaching activities in relation to the daily tasks of teachers

C. General Skill Learning Outcomes

- 1) Able to integrate learning and innovation skills, mastery of technology and information, career development, and life skills to become lifelong learners.
- 2) Able to apply logical, critical, systematic, and innovative thinking in the context of the development or implementation of science and technology that pays attention to and applies humanities values in accordance with their field of expertise.

D. Specific Skill Learning Outcomes

- 1) Able to design orientation activities and educational culture observations in an educational unit

- 2) Able to design and implement school field introduction programs related to learning and non-learning activities with full responsibility and discipline by utilizing science and technology to streamline programs and solve educational problems faced.

4. Course Learning Outcomes

- 1) Students are able to do curriculum analysis;
- 2) Students are able to design learning tools (RPP, media, worksheets, teaching materials, assessment instruments);
- 3) Students are able to carry out learning activities using a variety of learning strategies and learning media;
- 4) Students are able to evaluate good classroom management;
- 5) Students are able to evaluate learning that utilizes information and communication technology learning;
- 6) Students are able to carry out learning assessments and evaluations well;
- 7) Students are able to manage co-curricular and extra-curricular activities; and
- 8) Students are able to manage teacher administration work.

2. Course Description

Internship is one of the mandatory courses in order to achieve a link and match relationship between the campus academic world and the industrial world, business world, and the world of work in the era of the industrial revolution 4.0. The purpose of this course is to strengthen the work competencies of vocational students to absorb knowledge, skills, and experience in the industrial world so that after graduation they can compete in creating and finding jobs globally. Work experience in industry will mature students' competencies through their involvement in finding, recognizing, analyzing potential and solving work problems in industry through the application of science, technology, and art (science and technology) they learn in college.

3. Learning Outcomes of the Referred Study Programme

(determined by each study program)

4. Learning Outcomes

A. Attitude

1. Upholding human values in carrying out tasks based on religion, morals, and ethics
2. Being able to act as citizens who are proud and love their homeland, having nationalism and a sense of responsibility to the country and nation
3. Being able to contribute to improve the quality of life in society, nation and state based on Pancasila
4. Being able to carry out cooperation and having social sensitivity and concern for society and the environment
5. Being able to appreciate the diversity of cultures, views, religions, and beliefs, as well as the opinions or original findings of others
6. Obeying the law and discipline in social and state life
7. Demonstrating a responsible attitude towards work in their area of expertise independently
8. Internalizing academic values, norms, and ethics
9. Internalizing the spirit of independence, struggle, and entrepreneurship

B. Knowledge

1. Recognizing, observing, and analyzing the environment, situation, culture, description, and job demands in the industrial world, business world, and the real world of work
2. Applying various skills related to the knowledge that has been taught in the study program in the industrial world, business world, and the real world of work
3. (Adding the other knowledge according to the field of science of each study program)

C. General Skills

1. Being able to apply logical, critical, systematic, and innovative thinking in the context of the development or implementation of science and technology that pays attention to and applies humanities values in accordance with their field of expertise
2. Being able to make appropriate decisions in the context of solving problems in their area of expertise, based on the results of analysis of information and data
3. (Adding the other general skills according to the field of knowledge of each study program)

D. Specific Skills

1. Having the skills to work in fields related to the knowledge taught in each study program
2. Being able to plan work programs and work based on the designs that have been made
3. Being able to communicate effectively in a work environment
4. Being able to complete tasks effectively and on time
5. (Adding other specific skills according to the field of knowledge of each study program)

2. Course Description

Community Engagement Programme is one of compulsory courses for students in education and non-education study programme of Bachelor Degree in Undiksha. As a compulsory course, Community Engagement Programme aims for students to get direct experience in applying and integrating the knowledge they have mastered to solve problems in society. More specifically, Community Engagement Programme has the objectives to: 1) Providing valuable learning experiences to students through their involvement in the community to discover, formulate, study, recognize the potential of the target community, organize the community, solve, and tackle community development problems rationally by fostering motivation to take advantage of one's own abilities; 2) Providing opportunities for students to develop their thinking based on Science, Technology, and Arts; 3) Preparing development cadres; 4) Increasing students' empathy and concern for the problems faced by the community; 5) Increasing maturity and personality, namely (a) nationalism and the spirit of Pancasila, (b) tenacity, work ethic, and responsibility, and (c) independence, leadership, and entrepreneurship as well as broadening students' horizons; 6) Improving national competitiveness; and 7) Improving the spirit of researchers, especially in terms of (a) data exploration and analysis, (b) encouraging learning community and learning society

3. Learning Outcomes of the Referred Study Programme

4. Learning Outcomes

a. Attitude

Demonstrating scientific, educative, and religious attitudes and behaviors that contribute to improve the quality of life in society, nation and state based on academic norms and ethics based on THK values

b. Knowledge

1. Mastering theoretical concepts about concepts, mechanisms, codes of ethics, and thematic themes of Community Engagement
2. Being able to identify problems and potentials in the community.
